ABOUT ISVEA

ISVEA

ITALIAN GUSTO FOR 60 YEARS

These ancient lands, nourished by the generosity of the Mediterranean and enriching its inhabitants with the richness of its nature, constitute the heart of human journey to the better and the beautiful since antiquity.

This geography, where the good and the beautiful were bequeathed with the fire of the Renaissance, is the source of our search for the aesthetic in everything we own today.

It has brought the world the people who seek refinement on the fertile lands of the Italian peninsula with the fascinating Italian cuisine blended with the generosity of the Mediterranean. The quest to spread aesthetics to the whole of life has led to the transformation of an architectural understanding that has embraced human beings since time immemorial into an Italian architectural understanding that responds to the functional and aesthetic needs of modern man. The cultural values that these lands have accumulated almost throughout human history have shaped the way modern people dress and the appearance of the objects they need. The practice of reflecting on the human with the Renaissance is the source of today's practice of aestheticizing human values and needs.

This land where ISVEA was born, grew up and spread around the world is the source of a refined taste, i.e. the Italian gusto. We have been developing and sharing what this gusto has given us with the world for **60 years**. With each passing day, we want to share an inspiring world for people by creating unique, bold and stunning products that are more and more captivated by this refined taste.

This is our 60th year in this land where the heart of good and beauty beats.

ISVEA xheritage

ISVEA FLUSHING SYSTEMS

ISVEA x tech @2023 Waterfall washing technology offers an impressive cleaning experience similar to “waterfall” through flow of water in a special form.

In Flushing Systems Technology, which allows water to pour slowly from a larger area, water scans the walls of the toilet in a circular motion using a special design and flow control, leaving no area unreached. Owing to its special flow control, it offers a quieter and more comfortable bathroom experience.

Water Fall Flush

ISVEA x tech @2024 Waterfall flushing technology delivers an impressive "waterfall" cleaning experience through a specially designed water flow.

The Waterfall Flushing Technology, designed to let water flow slowly from a broader area, utilizes a special design and flow control to sweep the toilet walls in a circular motion, leaving no area untouched. This controlled flow ensures a quieter and more comfortable bathroom experience.

VORTEX

Flushing System

ISVEA x tech @2024 VORTEX Flush technology focuses on enhancing the cleanliness and water efficiency of modern toilets. This innovative approach provides a quieter and more powerful clean with less water consumption.

CleaRim Plus
